Shlok Warulkar

Pune, MH | +91-8329804792 | warulkarshlok@gmail.com | LinkedIn | GitHub | Portfolio | Leetcode

Professional Summary

Engineering graduate with hands-on experience building full-stack web applications. Comfortable working across the development lifecycle from writing REST APIs to fixing bugs and deploying projects with a solid grip on data structures, algorithms, and core CS fundamentals. A quick learner with good communication skills, looking to apply my technical foundation to solve real business problems in a technology role.

Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.E. (Information Technology)	D Y Patil College of Engineering, Pune	9.04	2023–Present
12th(HSC)	MJCOS, Maharashtra State Board	87.88%	2023
10th(SSC)	RLSES, Maharashtra State Board	93.20%	2021

Experience

React Frontend Developer Intern — @Elite-Softwares Dec,2025 — Feb,2026

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Git/Github, REST APIs. Remote

- **Developed and maintained responsive UI** components using React.js, collaborating with development team to deliver features for working project.
- **Debugged and resolved 10+** frontend bugs and UI inconsistencies across the application, improving overall user experience and Integrated **REST APIs** to fetch and display dynamic data using HTTP client **Axios**
- Participated in **code reviews and daily stand-ups meets**, gaining hands-on experience with Agile workflows and collaborative development practices.

Projects

Invoxa AI | MERN Stack, Google Gemini API, Tailwind CSS, JWT Auth, Axios GitHub | Live

- Built a full-stack **AI-powered invoice management** platform using the MERN stack to streamline product, customer, billing, and payment management, with a responsive UI built using React.js and Tailwind CSS.
- Developed **10+ RESTful APIs** with Node.js and Express.js for **JWT-based authentication** and complete invoice lifecycle management, including invoice creation, updates, deletion, and payment tracking.
- Integrated **Google Gemini API and i18next** to enable natural-language invoice generation, AI-powered business insights, and multilingual support

SecondBrain | Personal Knowledge Management Platform GitHub | Live

- Developed a MERN-based personal knowledge management platform with **20+ reusable React components** for managing notes, links, bookmarks, and learning resources in one centralized workspace.
- Implemented **CRUD functionality** across 4+ resource types using Node.js, Express.js, and MongoDB, enabling users to create, categorize, update, and retrieve knowledge efficiently.
- Built a **tagging and categorization system with MongoDB** to organize resources and enable faster access to saved content, including YouTube videos, articles, and code snippets.
- Designed dedicated experiences for **3 user groups** — content creators, lifelong learners, and knowledge workers.

Technical Skills

Languages: Java, C++, SQL, JavaScript
Databases: MySQL, MongoDB
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive UI
Backend: Node.js, Express.js, REST APIs, APIs Integration,Database Configuration
CS Core: DSA | OOPs | DBMS | OS | CN | System Design
Tools: Git, GitHub, Postman, Chatgpt, Claude, Gemini

Leadership & Achievements

ITESA — Sports Lead:Won the General Championship for the IT Department for the first time in 7 years. Under our leadership, organized 10+ inter-departmental sporting events, coordinating 100+ student-athletes.

Certified Full Stack Web Developer — Udemy (Dr. Angela Yu's Complete Web Development Bootcamp)

Solved **400+ DSA problems** on LeetCode, Codeforces, and GeeksforGeeks combined
